

Fungal Infections and Antifungal Therapy Symposium
Duke University Medical Center
131 Hanes House
November 13-14, 2015

Friday, November 13, 2015

7:45am- 8:00am

Continental Breakfast

John R Perfect, MD – Introduction

8:00am- 9:00am

Eileen Maziarz, MD

Fungal Infections in solid organ transplants and ICUs

9:00am-10:00am

Jennifer Saullo, MD

Epidemiology of Fungal Infections (High Risk patients Heme-Onc and BM Transplant)

10:00am-10:30am

Break

10:30am-11:30am

Barbara Alexander, MD, MHS

The Clinical Mycology Lab: Guiding therapeutic choices

11:30am-12:30am

Libby Dodds-Ashley, PharmD, MHS, BCPS

Antifungal Stewardship

12:30pm -2:00pm

Lunch

2:00pm -3:00pm

Melissa Johnson, PharmD

Antifungal drugs and their pharmacokinetics what do we measure?

3:00pm-4:00pm

Joe Heitman, MD, PhD

From Sex to Drug Development: Fungal mysteries are being unlocked

4:00pm-5:00pm

Case Conference

Interested Clinical Cases from Duke
Also any cases brought by participants

Stacey Maskarinec, MD

Julia Messina, MD

7:00pm

Dinner- Parizade
2200 W Main Street
Durham, NC 27705

Saturday, November 14, 2015

8:00am-8:45am

Continental Breakfast

9:00am-10:00am

Andy Alspaugh, MD

What do fungi tell us at the basic molecular level?

10:00am-11:00am

William Steinbach, MD

Pediatric Mycology: Kids are not small adults

11:00am-12:00pm

John R. Perfect, MD

Principles and Practices of Medical Mycology: why do we fail and can we prevent it?
