Explore Life after Residency with CompHealth

Our Expert Consultants Can Help You Find the Ideal Job Setting

With thousands of practice opportunities nationwide, we place more physicians than any other firm in the United States. As a graduating resident or fellow there are two things you should know:

- Job searches take time to research and conduct due diligence
- A CompHealth consultant can do the legwork for you and present you with more options

Permanent Placement or Locum Tenens—What's Right for You?

Locum tenens, or temporary physician staffing, is your alternative to setting up a full-time permanent practice at one location. It allows you to work assignments nationwide that interest you—varying practicing setting and geographical location.

Here's how our experts can help you:

- Gain hands-on experience, building your skills and CV
- Work as much or as little as you'd like, with the schedule that suits you
- Ease into the transition from residency to fellowship
- Get an insider's view of practice management
- Receive paid air travel, private housing, and local transportation for every assignment

A permanent position is a long-term contract with a facility or organization that allows you to set up practice in one location. You will have to be licensed

in the state and have the necessary privileges and credentials.

Here's how our experts can help you:

- Get custom practice searches tailored to your skills and preferences
- Locate hard-to-find opportunities that are never advertised
- Negotiate your contract for a higher salary and better benefits
- Receive free licensing services—a value that others companies may charge up to \$700
- Get free relocation assistance—whether it's just you, or includes your family, this service makes the move easier and less stressful

Why You Should Work with CompHealth after Residency

We'll find the right opportunity and compensation for you and take care of all the details. Your CompHealth consultant provides service and support 24 hours a day, 7 days a week. You receive comprehensive coverage for any claim resulting from an incident on a CompHealth assignment.
