Mentoring
Finally, we will be doing an additional program to facilitate mentoring sessions with members of the FDA and current leaders at Duke. We encourage you to identify someone who matches who your aspirations (your “super-leader”). Once identified, we will facilitate meetings/informal mentoring sessions for you and this person. You will receive a questionnaire in the next few weeks that will guide you through identifying your super-leader. A link to the questionnaire will also be available on this web page.

LET IT FLOW (recent publications, new grants, any type of accomplishment)
This is where you share your recent publications, new grants and any type of accomplishment.
